FAMILY PHYSICIANS

Dr. Karl Stobbe
Dr. James Woodland
Dr. Bill Peters
Dr. Steve Taylor
Dr. Nancy Abram
Dr. Bernard Volts
Dr. Carri Reed

The Beamsville Medical Centre (BMC) is located in Lincoln, a small town surrounded by orchards, vineyards, golf courses and close to beautiful Niagara Falls. The Centre has been computerized for twenty years, with computerized medical records for the past six years. The BMC supports a group of eight doctors, five Nurses, and a loyal and dedicated staff of ten.

One of the doctors has helped organize the Rural Residency Program that has encouraged medical students to work in under-serviced areas. Since 1992, the Centre has supervised medical students as well as doctors in post graduate training in family medicine training through McMaster and the Rural Ontario Medical Program. The doctors staff the local emergency room on a rotating basis at West Lincoln Memorial Hospital in Grimsby. The Centre is a Family Health Network and is applying to the Ministry of Health to become a Family Health Team (FHT).

The BMC also includes a chiropractic clinic, a massage therapist, a dental clinic, two psychologists and a pharmacy. In the future, they hope to integrate these professionals along with a nurse practitioner, social worker, nutritionist and physiotherapist.
